WA404 TB FAILING EDBC FOR NON-CITIZENS

When a TB application is received and processed for non-citizens, EDBC will fail with a status of Ineligible Non-Citizen. Non-citizenship guidelines are not a requirement for TB, therefore a workaround is necessary.

> **NOTE:** This workaround assumes the worker has run EDBC and received a denial reason of Ineligible Non-Citizen, but has not saved and accepted the EDBC. The worker is on the Medicaid EDBC Summary Page.

STEP 1: Click **Cancel** on the **Medicaid EDBC Summary** page.

STEP 2: Click **Cancel** on the **EDBC List** page.

STEP 3: Select **Non-Citizenship** in the **Task Navigation** menu.

STEP 4: Create a Non-Citizenship detail record with the following:

- **USCIS Document**: Tribal Affidavit – Canadian Born Northern Ameri. Indian
- **Verified Field:** Set to Verified
- **Initial SAVE Status:** Lawful Permanent Resident
- **Begin Date:** First day of the Application Month

STEP 5: **Save** the record.

STEP 6: Select **Individual Demographics** from Task Navigation.

STEP 7: If the consumer has a **SSN Status** of SSN Provided or No SSN Available, update to Good Cause.

STEP 8: **Save** the record.

STEP 9: **Run EDBC** in all months until EDBC is high-dated.

> **NOTE:** Once TB has been approved the data that was entered to force a passing budget must be corrected to prevent potential benefits for the consumer if they apply for other programs and would not qualify.

STEP 10: Navigate to the **Non-Citizenship List** page and remove the record.

STEP 11: Navigate to **Individual Demographics** page and update the SSN status to its previous status; SSN Provided or No SSN Available.
