WA430 INCORRECT JOURNAL ENTRY OF INCARCERATION

When applications are registered through the No-Touch process, some SSP Applications are generating an incorrect Auto Journal entry of "Incarceration".

If the Applicant is Not Incarcerated

If an Auto Journal entry of **Incarceration** is generated, first verify the person is indeed not incarcerated.

Suppress the Journal Entry

If you identify a journal entry of **Incarceration** is incorrectly generated, place a check mark next to **Incarceration** journal entry and click **Suppress**.
